Armand Viktor Bozsik

Fresh Graduate in Computer Science with a focus in system
analysis, planning and development.

Budapest

Summary

As a fresh graduate (currently doing a master's degree) in Computer Science at the University of Szeged, I am always open to enhancing my knowledge. Thanks to my opportunities during my coursework and internship, I was able to gain experience in PHP and C# development.

Furthermore, my internship experiences helped me to strengthen my ability to understand the clients' needs more thoroughly. Moreover, I was able to hone my interpersonal communication skills by having direct contact with the key stakeholders.

I am passionate about system analysis and design since it allows me to form every aspect of the development process and transform dreams and ideas into a sustainable final product.

I believe life-long learning, the ability to adapt to new challenges, understanding new concepts and problems are essential skills in our rapidly changing and evolving world.

I am seeking opportunities to use my current skill set, but I am always ready to learn something new, so I would love to connect with you!

Experience

Erdőmentők Alapítvány

Web Developer

August 2019 - December 2019 (5 months)

During my internship, I have designed and created a PHP based web application for the Erdőmentők to make the transportation of animals accessible, secure, and more beneficial by selecting and applying the proper mathematical and algorithmic apparatus for the task.

Related skills: HTML5, PHP7, CSS3, JS, Bootstrap, Analytical Skills, SSADM, Individual Work, Communication, Time Management

Neumann János Computer Science High School BMSZC

Web Developer

September 2012 - June 2015 (2 years 10 months)

Budapest, Hungary

As part of my internship, I have created the community-driven and updated, multilingual, responsive website "Neumann At Home in the Forest" for the Otthon az Erdőben competition announced by IKEA.

Related skills: HTML5, PHP5, WordPress, CSS3, JS, Teamwork, Communication, Time Management

WinMagazin

Translator

January 2015 - May 2015 (5 months)

Hungary

I have translated numerous articles from English to Hungarian (and vice versa) mainly related to the Microsoft ecosystem and IT Security. In this role, I was not only able to use my language and translation skills, but I also learned how to be part of a team, the importance of teamwork and this opportunity also gave me an excellent sense of time management by having strict deadlines. All of my translations are readily available on my blog (armands.blog).

Related skills: Blogging, Writing, Translation, Teamwork, Time Management, Communication
